

SMARTPOST

COMPACT DESIGN. COMPLETE INTELLIGENCE.

MAIN FEATURES

- Advanced functionality without compromising aesthetics or space
- Combines AI computer vision, RFID, Time-of-Flight people counting, and EAS—no need for multiple systems
- Embedded Hanwha AI camera detects people, faces, vehicles, clothing color, and more—with no cloud dependency
- RFID-enabled exit alerts and loss prevention tools offer real-time visibility and proactive protection
- Delivers actionable insights like heat mapping, queue management, and traffic counting—without additional hardware
- All data is processed locally for faster performance, tighter security, and no extra software licensing fees
- Available in AM, RF and RFID technology with high detection rate on hard tags and labels
- Custom designed & manufactured in Europe utilizing high quality materials
- Sound and LED alarms
- Remote maintenance and adjustment over IP
- 5 yrs warranty option: 2 yrs parts and labor + 3 added yrs on parts only (w/remote connectivity).
